

YEAR 7

TEAM

**Miss Metcalfe**

KS2/3 Transition  
Coordinator

I have worked at Longfield for 14 years and I actually came to Longfield as a pupil too, so I know just how you are feeling.

I have worked in most of areas of the school, but I was a part of the English Team for a long time. For the last 4 years I have worked in the Welfare Team and now look after Year 6 Transition which I love!

My favourite thing about school is how safe I feel there. No matter what happens, I know everything will be OK because people are always there to help.

My advice to you all is to try not to worry about things – that is my job! Getting lost, homework, lunchtimes... we will support you in everything until one day it will feel like you have always been at Longfield.

Just think... soon you will be giving advice to the new Year 6 pupils joining us in 2022.

**Miss Piggett**

Head of Year 7

I have worked at Longfield for 15 years and cannot imagine working anywhere else. I was a pupil myself at Longfield and can honestly say I loved my school days.

I started working here as a swimming coach and then joined the PE department in all areas of Sport, that's where my competitive side comes from.

I have helped with Primary School swimming which is where some of you may recognise me from. I then took on a Year Leader role which I absolutely love. I cannot wait to take on a year group from the very beginning.

My favourite thing about school is the team ethos. This brings fun, healthy competition to everyday life. We all look out for each other here at Longfield.

My advice to you all is to enjoy each and every second of school life and go through school with no regrets. Make new friends, be nice to one another and keep learning throughout your Longfield journey.

You will be my class of 2026...crazy times but we will all get there together.
